ClinicalKey Student Renewal Proposal for 2024-25

Dear Dr Upadhyaya,

Greetings from Elsevier!

In reference to your email, please find following submissions.

- Since 2021, we have refrained from implementing any uplift, resulting in stagnant prices. Despite the standard increment for Elsevier being 10%, to honour your email we've adjusted uplift from 6% to 4% for ClinicalKey Student, and aligning with what we've done for ClinicalKey Physician/Flex.
- We're consistently organizing annual engagement sessions divided into every month for faculty members in collaboration with GME, IQAC, and the Central Library. These sessions focus on "**Optimizing Digital Resources for Creating Learning Content.**" To date, we've successfully conducted 8 sessions spanning 4 days, involving participation from 16 departments. Till now we have engaged with least 100 to 150 faculty members.

I will be sharing revised proposal with Mr Khare and I am hopeful that this email brings required clarity, Please let us know if you require any further information or assistance in this regard.

Best Regards,

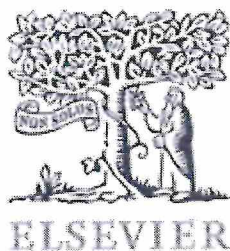

Shikhar Srivastava (*Pronouns: he / him*)

Dear Sir,

Greetings from Elsevier!

In reference to your email, please find following submissions.

- The standard increment for Elsevier is 10%, considering KGMU being a legacy customer we have revised increment to 4% only as we did for ClinicalKey Physician/Flex & since 2021 we have not charged any uplift and price are stagnant.
- We're consistently organizing annual engagement sessions divided into every month for faculty members in collaboration with GME, IQAC, and the Central Library. These sessions focus on "Optimizing Digital Resources for Creating Learning Content." To date, we've successfully conducted 8 sessions spanning 4 days, involving participation from 16 departments. Till now we have engaged with least 100 to 150 faculty members.
- In response to your requirement "list of users' reports"-Attached reports includes registered user count, which is basically a count of users who logged in to ClinicalKey student using their personal accounts. There could be many more users who use ClinicalKey student via IP access. Our systems do not allow us to track the number and usage of users via IP due to GDPR compliance. We also cannot disclose the identity of individual users for the same reason.

Please find the revised attachment for your refence hard copy of same shall be shared by our authorized vendor International Subscription Agency.

Best Regards,

Shikhar Srivastava (*Pronouns: he / him*)
